## PREFACE

When the American Imprints Inventory was started in the spring of 1937, two final results were anticipated. The first was to be a file or union catalog of title slips which would represent the holdings of American libraries to the limiting dates for each state in the field of books, pamphlets, and broadsides printed in the United States. The second was to consist of published check lists drawn from this material, covering the publications of the various states and certain cities, within certain periods.

The master file of title slips has been built up until it now contains more than 14,000,000 typed slips, representing possibly 1,000,000 separate titles printed in the period of American printing to 1877 in all states but Arizona, Utah, Nevada, Idaho, Wyoming, Montana, and the Dakotas. In these states where printing had a later start, the limiting date is 1891. Work is continuing in several states in making additions to this file, has been completed in some states, and has been discontinued in others.

Under the direction of Mr. Douglas C. McMurtrie, Consultant from the beginning of the Inventory until July 15, 1941, the second phase, that of publication of check lists, was chiefly confined to the editing and issuance of them in the more complex Style A form in the central filing office in Chicago where the editorial staff is located. The Style A lists, requiring title page line endings and printer's devices and bibliographical notes, require an almost endless amount of research, both in the libraries where the books are located and in the huge file which complements them in the central office.

It had become apparent, on the basis of possible publication of Style A lists by either the central office or the various states, that if the more than a million titles so far harvested from American libraries were to be made available to the public, some swifter method of issuing the check lists would need to be found. Two solutions seemed possible: That of abandoning the complex Style A lists and issuing simple Style B lists which would provide the user with all pertinent information on the title of the book, its location, author, printer and date of publication, or the return of the title slips to the states themselves for issuance of Style A lists of their own titles. The former solution would have speeded up publication to a considerable extent in the central filing office. The latter would have provided twenty or thirty Style A lists at the end of a year, some of which might have been of questionable quality because of the limitations involved in personnel and sources for necessary research.

A study of the problem has convinced the central office of the Historical Records Survey Project in Washington that the answer may lie in combining the two solutions, that is, the issuance by the various states of their own titles in simplified Style B check lists which can at a later time be refined by the states or by interested scholars. To this end, a manual of editing has been written and furnished the various states. In more than twenty states the staffs have given assurance that such simplified editing is possible and have requested that their material be sent from the central files.

Massachusetts, however, was one of the states which was originally intended to edit and publish its own list. Consequently, material from the central files had been received and a great deal of the editing of it had already been accomplished at the time that the above outlined policy was finally put into effect. For this reason, the Massachusetts check lists will contain many entries written in detailed Style A form. All entries have been edited with painstaking care by competent people.

It was decided that as the exhaustive work of Charles Evans, called "American Bibliography" ends with the year 1800 and as there is no such work at all for the period from 1800-1820, the most valuable contribution of the American Imprints Inventory would be to supply a check list to fill this gap. Therefore, this volume, the second of the Massachusetts publications, lists the product of the press of the state during the year 1802.

The same arrangement of material has been followed as was used in the preceding volume. All titles are listed alphabetically by author or other main heading. There are 377 titles in all, and of these, numbers 375-377 are listed in the appendix because they bear no definite date of printing but have been ascribed to the year 1802 for one reason or another.

This volume lists titles reported by 438 depositories, including the British Museum and thirteen private collections. Of this total, 123 depositories are located in Massachusetts. Each library is identified by a symbol assigned to it by the Library of Congress. The "Key to Symbols for Libraries" gives the full name and address of each library represented by a symbol, and also the number of titles reported as single copies from one depository only. There is a total of 119 copies which, until any duplicates are reported, may be considered unique.

The titles in this list, except those that were originally reported from there, have not been cleared through the Union Catalog of the Library of Congress.

To acknowledge all the assistance rendered by everyone concerned in the compilation of a bibliography of the nature and extent of this one is almost impossible. This project has always been fortunate in having the unfailing cooperation and appreciative interest of George F. Burrows, State Supervisor of Clerical Services Program of the Massachusetts Work Projects Administration program. We are grateful to Dennis A. Dooley, Librarian, Massachusetts State Library, for his sponsorship during the entire life of the American Imprints Inventory, and for his ever present cooperation in all matters pertaining to it. Credit for the organization of the Massachusetts American Imprints Inventory in December 1937, and its expansion to its present state wide operation goes to Annis K. Kirkpatrick, State Supervisor, for over two years, and now librarian at United States Naval Air Station in Quonset Point, Rhode Island. Marion Watson was State Supervisor from April 1940 to June 1941, and is responsible for continuing the successful operation of the project during this period. The majority of the editing of all the material in this volume was done by Cora F. Holbrook, who also directed its preparation for publication.

All the public and private libraries represented have made valuable contributions toward the accomplishment of this list, and many of them have been acknowledged in previous publications of the Imprints Inventory. The Massachusetts American Imprints Inventory is particularly indebted to the librarians of this state who have cooperated so fully in making available to us their entire collections and in answering the many additional queries necessary for complete descriptions of the rarer titles. Our gratitude to some of these librarians was expressed in our preceding volume "A Check List of Massachusetts Imprints, 1801". Others who gave generously of their time and the resources of their libraries and staffs are: Miss Ruth Alexander, of the Diocesan House Library, at Boston; Mrs. Keyes D. Metcalf, of the Boston Athenaeum; Miss Muriel Davis, of the Library of the Grand Lodge of Masons in Massachusetts, at Boston; Mr. Fred Tower, of the Concord Antiquarian Society; Miss Elizabeth Humphreys, of the Dedham Historical Society; Rev. John H. Scammon, of the Andover Newton Theology Seminary, at Newton; Mr. Irving T. McDonald, of Holy Cross College Library, at Worcester; Mr. Frederick Myers and Mrs. Jessica Sisson, of the Berkshire County Law Library, at Pittsfield; Mr. James F. Ballard, of the Boston Medical Library; Miss Lydia W. Masters, of the Watertown Public Library; Mr. Leslie T. Little, of the Waltham Public Library; Miss Helen F. Carlton, of the Lucius Beebe Memorial Library, at Wakefield; Mr. John D. Kelley, of the Somerville Public Library; Miss Edith M. Baker, of the Clark University Library, at Worcester; Mr. Frank Hutt, of the Old Colony Historical Society, at Taunton; Rev. Father Gabriel Ryan, of St. Gabriel's Monastery, at Brighton; Mr. Charles R. Green, of the Jones

Library, at Amherst; Miss Anne A. Smith, of the Chicopee Public Library; Miss Mabel Barnum, of the Library of the College of Liberal Arts, Miss Margaret Locke, of the College of Business Administration, Mr. Harrison MacDonald, of the Library of the School of Law, and the librarians of all the other colleges of Boston University; Miss Louisa M. Hooper, of the Brookline Public Library; Miss Marguerite Smith, of the Zion Research Library, at Brookline; Miss Rosalie Ellis, of the Stockbridge Library Association; Miss Edith Gardner, of the American Unitarian Association, at Boston; Mr. William N. Seaver, of the Massachusetts Institute of Technology; Miss Bessie P. Ropes, of the Peabody Institute, at Danvers; Mr. Harold T. Dougherty, of the Westfield Atheneum; Mr. Irving S. Cole, of the Newburyport Public Library. The many owners of private collections are listed in the "Key to Symbols for Libraries".

We are also indebted to the many field workers and the office staff of the American Imprints Inventory without whose assistance this list could not have been compiled.

In March, 1942, title to the American Imprints Inventory central files located in Chicago was transferred to the Library of Congress, and the materials moved to the Wisconsin State Historical Society for the duration.

Barnes, David

The | Character and Duties of a Christian | Minister: |  
[Double rule] | Considered in a | discourse, | delivered

1. The first part of the paper is devoted to a general discussion of the problem of the existence of solutions of the system of equations

which are satisfied by the functions  $u_i(x, y, z)$  and  $v_i(x, y, z)$  in the domain  $D$  of the space  $E_3$ . It is shown that the system of equations is solvable in the domain  $D$  if and only if the functions  $f_i(x, y, z)$  and  $g_i(x, y, z)$  satisfy certain conditions.

2. In the second part of the paper the problem of the existence of solutions of the system of equations is solved for the case when the functions  $f_i(x, y, z)$  and  $g_i(x, y, z)$  are polynomials of the coordinates  $x, y, z$ .

3. In the third part of the paper the problem of the existence of solutions of the system of equations is solved for the case when the functions  $f_i(x, y, z)$  and  $g_i(x, y, z)$  are functions of the coordinates  $x, y, z$  and of the time  $t$ .

4. In the fourth part of the paper the problem of the existence of solutions of the system of equations is solved for the case when the functions  $f_i(x, y, z)$  and  $g_i(x, y, z)$  are functions of the coordinates  $x, y, z$  and of the time  $t$  and of the parameters  $\alpha, \beta, \gamma$ .

[Thick-thin rule] | [Hand] | Since the prospectus of  
our intended | work was printed, a new system of  
geography, dated 1802, has | appeared at London, and  
from thence brought to America. | As this publication  
must be very interesting to those concerned in | any  
work of a similar kind, it has been thought proper to  
peruse | it carefully; and as we have already declared  
our sentiments freely, | concerning other geographical  
works, we hope it will be thought | neither invidious  
nor impertinent to lay before the public an ac- |

likely to receive from it, | and how far it is likely  
to answer the purpose of a geographical | system. |

work consists of two large volumes in quarto, neatly |  
 printed on a large type, and illustrated by forty-five  
 maps, elegantly en- | graven by one of the best artists  
 in London, and done in such a manner | as to be  
 extremely pleasing to the eye. The work, it appears,  
 has not | been executed at the expence of Mr. Pinkerton  
 himself, but of Messrs. | Cadell & Davis, Longman &  
 Rees, eminent booksellers in Lon- | don, capable of  
 furnishing every material necessary for the execution |  
 of such an arduous undertaking. In this respect they  
 have not been | deficient. "By the liberality of the  
 publishers" says Mr. Pinkerton, | [4 lines, quotation] |  
 "We are informed that he has been accustomed to draw  
 maps | from his early youth; and [2 lines, quotation] |  
 In other words, he is equally capable. "In this work,"  
 says he, "the effence [sic]" | [8 lines, quotation]
